

INTEGRATED LIBRARY SYSTEM

What is JASI?

- JASI stands for “Joint Automated Server Initiative“
- a program developed by Ontario Library Service – North that provides equity of access to library services, technologies and resources for Ontario’s residents through a shared integrated library system.

It Takes A Library to Raise a Community

Une bibliothèque est requise pour hausser la communauté

Advanced Technologies

JASI members enjoy the benefits of leading-edge technology at an affordable price such as:

- Mobile apps
- Social media integration
- Automated patron notifications
- Smartphone integration for staff and patrons
- OverDrive Integration

- The JASI software is powered by SirsiDynix
- SirsiDynix is the leader in Library Systems:
 - 4720 libraries worldwide with over 20,000 individual sites
 - 1.3 Billion circs annually
 - 1.7 Billion searches annually

- Symphony
 - A robust, flexible ILS, Symphony gives your staff and community the tools they need to get the most out of their libraries. It is easy to use, too, so your staff can quickly get up to speed and your customers will be able to find what they need. As a mature platform, Symphony is reliable, stable, and secure.

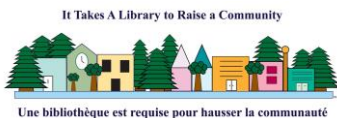

SirsiDynix Enterprise

Enterprise highlights the full potential of all your content with a single search that spans your databases, physical catalog, and digital catalog. It gives you accurate, human-friendly results and a customizable look-and-feel that integrates with your website.

<http://www.sirsidynix.com/products/enterprise>

Visit www.jasinorth.ca for more information.

Portfolio

When you have the power of Portfolio, digital collections show up alongside all others. Special features including built-in OCR for full-text searching and access control to protect special items or collections make special collections easy to share.

<http://www.sirsidynix.com/products/portfolio>

Visit www.jasinorth.ca for more information.

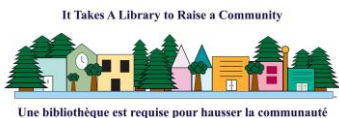

SirsiDynix Bookmyne

BookMyne allows you to scan the barcode on any book—even from a friend's house or bookstore—so you can check the availability at any participating library. With additional features such as in-demand library information, holdings, and services, BookMyne gives your library users on-the-go library access.

<http://www.sirsidynix.com/products/bookmyne>

Visit www.jasinorth.ca for more information.

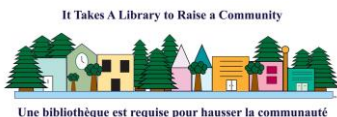

SirsiDynix Social Library

Chances are your users, whether they're students or not, are avid Facebook users. So why not put your library's catalog on Facebook, too? Members will be able to see their account, search, and place holds on items right from Facebook itself.

<http://www.sirsidynix.com/products/social-library>

Visit www.jasinorth.ca for more information.

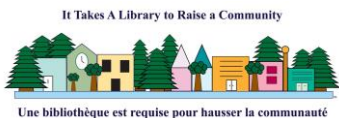

eResource Central

Easily provide the technology and resources your community wants without overburdening your own staff. Place holds on eResources, return them early, and see your eResource holds and checkouts all within Enterprise.

<http://www.sirsidynix.com/products/eresource-central>

Visit www.jasinorth.ca for more information.

MobileCirc

MobileCirc frees you to move around your library and community with streamlined circulation, inventory, and shelving features in an easy to use Android and iOS app, or an HTML5 version for laptops.

<http://www.sirsidynix.com/products/mobilecirc>

Automated Patron Calling

- Brings your library increased patron support and enhanced communication.
- For incoming calls, Voice Automation can provide a full range of general and user-specific information, as well as perform user account actions directly. Patrons can be reminded of checked out materials, get a list of overdue materials, update their PIN, and more.
- For outgoing calls, save staff time by automating notices on late fees, overdue materials, hold items, or other information. By reducing postage and paper notification costs, Voice Automation can also save your library money.

How can you demonstrate your library's value?

Creating powerful and interactive reports is an important function for any library. BLUEcloud Analytics contains analysis tools specifically built for libraries and custom report features that give you insight into any future scenario.

<http://www.sirsidynix.com/products/bluecloud-analytics>

BLUEcloud Cataloging

Made specifically to help you catalog more with less resources, BLUEcloud Cataloging tools include MARC edits, merges, and original cataloging.

FAQ

It Takes A Library to Raise a Community

Une bibliothèque est requise pour hausser la communauté

Visit www.jasinorth.ca for more information.

Can JASI membership help to lower my operating costs?

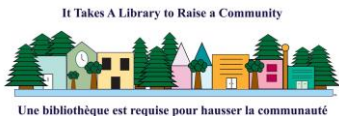

Yes.

Thanks to Consortia Purchasing Power, patron cards, labels, hardware, peripherals, cataloguing records and more can often be purchased at reduced prices.

How can JASI benefit First Nation or Francophone libraries?

All JASI members including First Nation and Francophone libraries can share unique collections with other libraries who often aren't aware of these collections or have limited or no access at all.

Visit www.jasinorth.ca for more information.

Do I need to be a cataloguing expert to join JASI?

No.

The JASI catalog provides access to thousands of MARC records.

Simply add an item to an existing standardized MARC record instead of creating or importing MARC records.

It Takes A Library to Raise a Community

Visit www.jasinorth.ca for more information.

Can JASI give me reports for my board or help with the annual survey?

Yes.

Creating reports is easier than ever before.
Create graphical reports for your board or complete provincial surveys easily with report templates.

Visit www.jasinorth.ca for more information.

Is my library eligible to join JASI?

Probably yes.

Membership in JASI is open to any non-automated public library in Southern Ontario that wishes to participate in addition to all Northern Libraries.

Participation criteria includes full participation in the Provincial Interloan system according to the policy of the appropriate OPS agency. Each public library that wishes to participate will be required to enter into a contractual agreement with OLS-
